

REALinspector

Welcome to the world of real time residential property inspections via your preferred handheld device. Use any iPhone, iPad, Android tablet or Android phone to easily and efficiently complete your property inspections. Property, landlord and tenant details are available at your fingertips and all inspection information is emailed back to you, meaning no more paper forms or manual data entry when you get back to the office.

Real Inspector

Real Inspector

Product Overview

Real Inspector is designed to capture property management inspections via smart phones or tablet devices. The following device operating systems are supported for Real Inspector.

- iPhone3 IOS 3 and IOS4
- iPhone4 IOS4
- iPad all versions
- Android smart phones using android OS 2.1 and above (i.e HTC Desire)
- Android Tablets using android OS2.1 and above. (i.e. Samsung Galaxy)

Note: Your device will require an internet connection to email the inspection data. Please ensure your mobile internet plan has sufficient internet bandwidth for Real Inspector. We recommend you allow up to 500mb per month, however, we do strongly recommend you monitor your internet usage regularly when using Real Inspector.

Once the inspection has been completed via Real Inspector your handheld device will send the inspection data via a html email back to the email address of the manager who performed the inspection. This will include any photos taken of the inspection. Up to 20 photos can be stored per inspection. Property managers or administration staff can then print or email inspection reports..

Real Inspector

Using Real Inspector

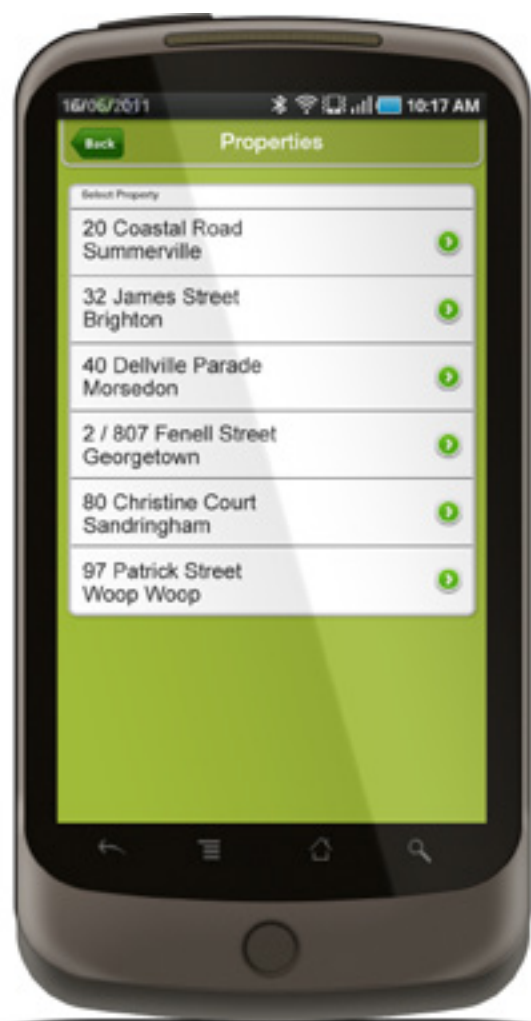

Real Inspector Inspection interface

1. Select your manager

Once the inspection data has been sent to Real Inspector the first step is to select the manager. If this is the first time using the app, you will need to enter your manager details. Once a manager is selected the property list for that manager will display.

2. Select your property

Once entered, your property list will always be available. Select a property to start a new inspection.
